Encl: (1) Sample Expenditure Report Format

1. Purpose. In accordance with the references, promulgate Class V (W) training ammunition expenditure reporting requirements for activities aboard Marine Corps Air Stations (MCAS's) Miramar, El Toro, Camp Pendleton, and Yuma.

2. Information. Class V (W) acquisition funding has been significantly reduced and future funding allocations will continue to be constrained. Ammunition development levels, reclassification actions, and unprogrammed expenditures have adversely affected war reserve and training support levels. Therefore, close management of these valuable assets is critical to maintaining the Marine Corps warfighting capabilities. The timely and accurate collection of expenditure information for budgetary development, preparation, and procurement planning is focal in assuring the uninterrupted availability of wartime and training stocks.

3. Action. All commands, units, and tenant activities utilizing Class V (W) munitions will:

a. Ensure ammunition management records are maintained and reflect accurate Class V (W) expenditure data in the respective Station Ordnance or training departments.

b. Ensure that all expenditures are reported for each Department of Defense Identification Code (DoDIC).

ABO 8014.1

c. Provide a detailed explanation when ammunition expenditures exceed the ammunition allowance or is less than 85 percent (exception data) of the computed allowance. In addition, all training ammunition (except Ammunition Supply Rate (ASR) item) shortfalls during the Fiscal Year shall be identified with supporting rationale.

4. Reports. Provide to the Commander, Marine Corps Air Bases Western Area (COMCABWEST) (Attn: Ordnance Officer) a monthly expenditure report of Class V (W) ammunition, no later than the 5th working day of each month. Forward to this command an End of the Fiscal Year Total Class V (W) Expenditure Report, no later than 3 working days following each Fiscal Year. A sample report format is provided in the enclosure.
